

ADVANCED LEVEL

The soft skills at work. I want to get a job and keep it!

How could I improve my trasversal abilities at work?

The robot can move to different soft skills. think if you behave like that in specific situations. In couple or in small groups you can adapt the board and create a new one more specific and proper to your job. Which skills do I already have? What do I still have to work on? Get +3 points for skills you have & -1 for the one you haven't got yet.

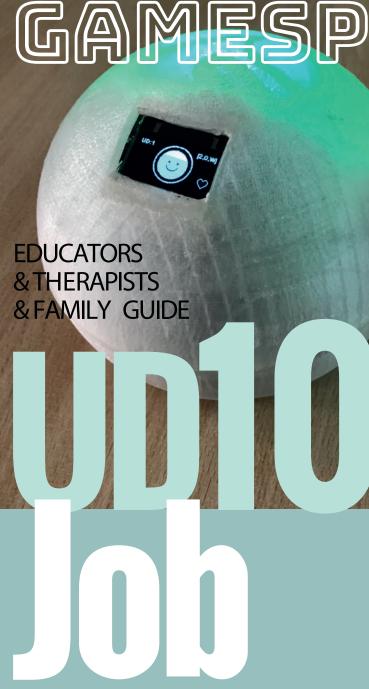

Other possible activities:

- Dress the robot with proper "clothes" depending on the specific job and role you have chosen
- Play in couples using jobs like you do with people in the game "Guess Who"
- If you already have a job, you can also use the city board, in order to memorize the way to go.

ONLINE PLAIFORM
TO INTERACT WITH PHYSICAL ROBOTS
FOR INTELLECTUALLY HANDICAPPED PEOPLE

In this unit about work, basically it would help deepen the knowledge of the activities and skills useful for working, and see what the robot can do in order to practice and achieve important goals for entering and remaining in the Job Market. We will focus on all those soft skills that increase autonomy in the field of work.

EASY LEVEL: you are going to recognise your goal on each board and to move the robot on the board (reading ability is not required. I could only present images.)

MEDIUM LEVEL: you can use the board provided or create your own. On this level it is possible to use QR codes to get more information (it involves reading ability).

ADVANCE LEVEL you have to cooperate with other people. It's a level for 2 or more players. It will help you to improve social skills and to respect general and social rules.

UNIT 10: JOB

This unit we will see activities and skills useful for working.

EASY LEVEL

When I "grow up"...! I am ready for work

What do you want to do when you "grow up"?

Move the robot on the board (Easy level.pdf), discover different jobs and try to choose what you would like to do.

Play in couples or small groups. One person chooses a job from the board and through the description given you have to find the right job.

MEDIUM LEVEL

The different kind of jobs. I want to deepen my knowledge of jobs!

Who can I contact if I need something?

The robot can move to different jobs and by using QRcodes you can get more information about the kind of work they do

Play in couple or in small groups and imagine different situations: to who do you go if you need...
