UD6
GO SHOPPING

ADVANCED LEVEL

For this game you need playing cards (only cards with numbers 1,2 and 3) and one dice.

You roll the dice and choose where you go shopping and what kind of products you intend to buy (summer/winter clothes, vegetables/fruit from the greengrocer's, sweets/food from the grocer's).

You choose a card. The number on the card shows you how many squares you can move.

If it is heart, move forward as many squares as the number on card indicates. If it is spades, move backward as many squares as the number on card indicates. If it is clubs, move right as many squares as the number on card indicates. If it is black heart, move left as many squares as the number on card indicates.
If the number is greater than the existing squares, you move to the available squares and stay one lap.
More details on the web www.gamesp.org

Each unit has activities with 3 levels of difficulty, for example:

- In Easy level you are going torecognise your goal on each boardand to move the robot on the board (Reading ability is not required. I could only present images of some objects.)

- In medium level you can use the board provided or create your own. On this level it is possible to use QR codes to get more information about the topics and involve reading ability. The players can create their own shopping plan (what?,where from ?,how much?).

- In Advanced level you have to cooperate with other people. It's a level for 2 or more players.

This unit is about going shopping with activities to interact with other people

EASY LEVEL

☺ Hello I'm a robot, I'm ready to go shopping with you. Take a card. Identify the image according to the number on the card.
💬 Where would you like to go shopping? Identify the image according to the number on the card.

⚛ Move the ROBOT from START to the place where you can buy the chosen product. On your way you can collect lucky stars. Take the ROBOT to FINISH and place it on the number representing the total number of stars collected. Look at the images and choose your favourite shopping places.

👁 Use the shopping board .
You can chose polite expressions from this list:
Thank you, Excuse me, could you help me?
I'm sorry, Goodbye - Good morning/ good afternoon - Hi! How are you?

MEDIUM LEVEL

☺ In order to go shopping, place the ROBOT on START.
Do not cross the red line.
You move the number of squares shown by the dice.

💬 You can buy what you find on your way. In the end, place on the square of each shop as many coins as specific products you bought there. Answer the questions:
1. What shops did you buy most products from?
2. What shops did you buy nothing from?
3. What else would you have liked to buy?
What are your favourite clothing items?

⚛ Follow the instructions below if you reach the green squares:BANK – you rest. Stay one lap.PARK – you breathe fresh air. You can move faster to the next square.BANK– you have got plenty of money. Go to the first product you come to and take it.
POLICE OFFICER – helps you to move three squares forward or backward.
ZEBRA CROSSING – you wait and stay one lap.
AMBULANCE – you stay one lap. You wait for the ambulance to pass....

👁 You have a board but you can create your own with the fruit/vegetables you like and also with fruit/vegetables for a healthy menu (avocado, broccoli, etc.) You have a clothing items board but you can create your own with your favourite clothing items.
